You will not find any jargon or catch phrases or medical-gobbledygook here. This is straight forward conversations about what goes on in and around the dying. J.I. Willett has given us plain talk about death.The book begins and ends with a poem - which as a poet, I love. But the meat of the book concerns our options for who we are, and become while we are going through the dying process. What kind of character do we want to become? Will we focus on the present? Will we be patient with the process? Will we act the martyr? All of this is a part of the dialogue our author brings to us - as if sitting across a table in a Parisian cafe and just chatting about our art.It is something we should read if we have been given a terminal diagnosis - or someone we love has. But, it is also a good book for helping us to integrate the idea that we will someday die into our current life.Don't wait. Read this today.2 of 2 people found the following review helpful. A Subject only a talented author can approach!By Karen Kelly BoyceAs a cancer survivor, I was attracted to this little golden book with the cherry blossom branches reaching across the cover. What a title? Dying without Crying? What could this author mean? I had to investigate.Death is not a popular subject. It seems we spend most of our life avoiding the elephant in the room. J. I. Willett doesn't hide from the uncomfortable. She plunges in. With faith, hope, and fascinating personal stories, this author encourages us to look at the road ahead to see what awaits us beyond the horizon."This is your journey. You need to have your mantra, "I will do the best I can for as long as I can. I am the captain of my ship." ~ page 17Readers are taken on that journey. We travel with Willett on the road we eventually all must walk. It is a spiritual path, not a depressing one. With great care and wonderful talent this author brings us safely down the path of death and into the arms of our awaiting God."and just at the moment when, someone at my side says "She is gone"; others take up the glad shout "Here she comes!"; and that is dying"; ~ (Bishop Charles Henry Brent) pg. 4With chapters like "Know Thyself"; and "Who needs a Martyr"; we are guided into the importance of facing our own death and the death of those we love with courage and planning. We are drawn spiritually and emotionally into the truth that we have been avoiding most of our life. We are all going to leave and we are going before we are ready if we don't look at death and live our lives in the present.How to stand beside those we love as they leave this life is touched upon with tender gentleness and practical advice."No matter who, no matter how, no matter what...No one should have to die alone"; ~page 50This book may be tiny, but the impact is enormous. The easy read; to read prose may be simple but its concepts are deep. It is a book to read and refer to repeatedly as we face the inevitable. It is a volume

that should be given to all the harried caretakers who carry loved ones through the end of their days on earth. It should be read by all health care workers and hospice volunteers. It is a gift to be given to those with terminal illnesses. Dying without Crying is a gem that glows with the wisdom of the ages and shines a light on faith, death, and love. 1 of 1 people found the following review helpful. from something new and wonderful that blooms

"EXCELLENT BOOK! I am writing this letter for the purpose of recommending Ms. J.I. Willett's book entitled "Dying without Crying." I am the co-owner of two funeral homes family owned and operated of 7 generations. From my experience, this short novel is especially comforting to families making pre-arrangements for a loved one. It gives family members the reassurance to "let go" by providing information they can relate to as they journey similar paths, experiences and emotions." ~ Kevin Freeman CFSP - Freeman Funeral Home Services,

"Thank you for introducing us to "Dying Without Crying." What a comfort it has been to the families we are serving ... to help them through the difficult times. We highly recommend this book to funeral homes, hospice associates and families transitioning through the end of life process." - Clayton McGirr Funeral Home,

"Well Done Good And Faithful Servant. I just watched your powerful witness on 'Called to Serve' TV10. I look forward to your new book. Well Done Good And Faithful Servant!" - Fr. Bill Thomas,

"Thank you, Janice. Your words fill up our empty spaces. Blessings." - John Carlucci, St. Mary's, Colts Neck, NJ,

"This book may be tiny, but the impact is enormous. The easy - to - read prose may be simple but its concepts are deep. It is a book to read and refer to repeatedly as we face the inevitable. It is a volume that should be given to all the harried caretakers who carry loved ones through the end of their days on earth. It should be read by all health care workers and hospice volunteers. It is a gift to be given to those with terminal illnesses. Dying without Crying is a gem that glows with the wisdom of the ages and shines a light on faith, death, and love." (full review in Media Section of website) - Karen Kelly Boyce,

"Perhaps because I have been a caregiver professionally for over 30 years, and also for family members, I really like this book. The author clearly has experience in the field from the details given. There is an overriding sense of reality in the work - that is 'no one gets out of this world alive' - without being depressing or unrealistically spiritual. Impending death hurts but does NOT have to be a battle lost, neither is it a picnic in the park for all concerned. The book provides useful, actionable tips for those with little experience in this realm of life. Dignity, the right to make decisions, the right to be treated as a living person by all, medical professionals, family, friends and others, is key to this challenging time. This work is a roadmap to help the reader accomplish that." - DENNIS McGEEHAN Professional Healthcare Provider,

From the Author Many thanks to the Lead Pastor First Baptist Church, Hightstown, NJ for this wonderful review:

"I was truly moved by this book! From the first sentence to the last poem, "Dying Without Crying" will take you on a journey not just through the author's experiences but the common experience of facing death with dignity and the sometimes difficult emotions and circumstances that accompany it. Just like the Resurrection of Jesus, Janice's experiences will bring you hope that even in death there can be room for new life; and that the end-of-life journey is really just preparation for the glorious new adventure that waits for us beyond the veil. This book will help you to "pack your bags" or help another do the same; and leave this life surrounded by Dying Without Crying love, set free from regret, and ready to enter the waiting arms of a compassionate Father." Rev. Bruce J. Wood From the Inside

Flap; "In her book, "Dying without Crying," J.I. Willett has truly captured the struggles and triumphs of those dealing with terminal illness. Her book is a beautiful, concise guide for both those who are terminally ill and those caring for them. It reiterates the need for all of us to remember to love and respect each other, and live each day to its fullest! " -CAROL A. JOHNSON LCSW, Geriatric Care Manager; "The work is "book-ended" by two magnificent poems that convey the author's essential message very well. Both are very simple poems that indicate that death need not be viewed as a total end. When I read the title, I assumed the "without crying" referred to the person facing a near-term death; but it quickly became obvious that it also referred to the loved ones on the journey with them. The writing is very clear, as is the message. After reading the Table of Contents, I was very much interested in reading the whole book" - THOMAS E. PORTER Author, Is a Catholic A Christian;
